Subject:	RE: Tomorrow's meeting

Hi Ehud,

1. If we keep the schedule then the meeting will take 45 minutes, they know so.
2. The structure of the meeting will be mainly a short company presentation including description of the inventors, the investors (potential and current), scientific and business potential.
3. We shall leave time for your reaction including the question of if, when and how you can support the company's future. To this question there is a great importance regarding the method of compensation. As for this, there are different models.
4. If we have time we shall try to discuss the engagement possibilities, if any.
5. I have other issues to discuss and I wonder if you have time for that tomorrow.
6. If there are other issues to bring up tomorrow, please let me know.
7. In any case, I'd like to set up a meeting with MF. As far as I know the week of July 7th – 12th is good for that. Of course, this should be set in advance.

Very best,
Doron

Doron hi
One hour. Try to finish with them in 40min. I leave Thursday 20th 0500 to St Petersbourg.
